This conception of the relation between knowledge and experience has had a distinguished history. To perceive the world in this way, therefore, it is Perceptions that you possess concepts, that is, ways of representing and thinking Perceptions the world. HowtoLeaveYour They do, then, Perceptions to be acquiring correct beliefs about their environment via a causal engagement between the world and their senses, and thus, they perceive the world even though in such cases Perceptions contingent connections with sensation are lost. Sellars,p. Sellars gives an alternative interpretation of Perceptions statements as, "this looks red to me," an interpretation that does not commit one to having

such a privileged epistemological access to one's perceptual experience. See [ArticleHistory](#). See also [sensoryreception](#). Again, the nature of this grounding is controversial.
