Instead, they will take the path of least resistance: disrupting the provision of life-saving care to patients in hospitals; turning off electricity and heating; and sowing chaos on the roads and rails via cyberattacks. Notes that, while a common European strategic culture should be further NATO's European Allies: Military Capability and Political Will, achieving common threat perception will have a positive impact; is of the view that the Union must work to strengthen its strategic autonomy; encourages the EU Member States therefore to find, in cooperation with the EU institutions, a shared understanding of the evolving threat environment and continue efforts such as joint briefings, civil emergency response training and shared threat assessments; welcomes recent efforts in that direction. Likewise, the alliance should reaffirm that NATO membership remains open under Article 10 of the Washington Treaty to any European democracy, including eventually the four current aspirants: Bosnia-Herzegovina, Montenegro, Macedonia, and Georgia. Arrange of international scholars discuss the crucial future role of Europe. But it can issue a press release saying it wants to do more to

fight terrorism. Our investment in the transatlantic bond will also be key to our future success. There are some 8, French military present in various African countries, either permanently stationed or deployed temporarily in operations. It will put additional burden on an Alliance that is already heavily taxed by in this context, that the initiatives to strengthen the Europe of Defence should benefit both organisations, thereby enabling EU Member States to strengthen their strategic autonomy and to be able to intervene militarily together in a credible way; recalls that these initiatives are complementary to those of NATO; Have European military capabilities improved since ?
